

## Fade Away

We used to have it all but now it's gone away  
Time to say Goodnight the sunlight fades to gray  
We used to have it all but why pretend anymore  
I left my heart open and then you closed the door

**FADE AWAY, FADE AWAY**

**I can't fight this battle, no not another day**

**FADE AWAY, FADE AWAY**

**It's hard to let you go, but you won't seem to stay**

We used to be so close sharing everything  
Now all we share are glances few and far between  
We used to be so close walking arm in arm  
But now there's space between us seems we fell apart

**(Chorus)**

And I hate to see you go  
But I think that we both know  
We have drifted much too far  
It's time for us to be apart

We thought it'd never end the bond that we once had  
But nothing lasts forever now I understand  
We never thought it'd end but here we are today  
Watching something precious slowly FADE AWAY

**FADE AWAY, FADE AWAY**

**I can't fight this battle, no not another day**

**FADE AWAY, FADE AWAY**

**Watching something precious slowly fade away**
