

When I'm With You

Do you remember that day when you walked me home?
Standing at my doorway, we're all alone
Then our eyes met, so we leaned in close
But something stopped us
And that's what I regret the most

And I just want you to know
I'd give anything to have that moment back
And I just want you to see
Being with you could be everything to me

And then you turn around and find some other girl
But I guess I shouldn't blame you
Cause I never told you how I felt
WHEN I'M WITH YOU

Chorus:

**Do you ever get, get that feeling
The feeling I get WHEN I'M WITH YOU
I catch my breath and save the moment
When my eyes are locked on yours
And your eyes are locked on mine**

You held my hand, it was just a joke
Then your hand slipped and my heart broke
Then I reached out, but you didn't see
So I pulled back, was it meant to be?

And I just want you to know
I'd give anything to have that moment back
And I just want you to see
Being with you would be everything to me
Just wanna see your smiling face
And I want you to hold me
Anytime and anyplace
I just wanna look into your eyes
And know it's not a game
Don't wanna keep my heart guarded
I wanna love you everyday

(Chorus)
