

# Coal Mine

## *INTRO*

I feel it in my lungs  
I feel it in my - I feel it in my lungs ahhh

## *VERSE*

I wasn't looking for a lost cause  
But somehow you found me  
Every effort was the right wrong  
to keep you from drowning  
Hope I'm not missing the point  
I hope my light is showing, but I see poison growing  
Burning bridges while you're laughing  
For once do the right thing

## *CHORUS*

Are you pulling me down  
Am I lifting you out  
of this Coal Mine  
Am I dying tonight  
Am I breathing new life  
In this coal mine  
I want to stick around  
But the fire's fading now  
Are we stuck underground  
Are we making it out  
of this Coal Mine

## *VERSE 2*

Will I wake from a daydream  
With my best years behind me  
Or is the strength in the journey  
The tempest that we need?  
What if we're missing the point?  
Endless hours proving you're stuck and never moving  
Every scar a reminder  
You couldn't be blinder

## *CHORUS*

## *BRIDGE 3X*

Was my love only fuel to the fire  
Ash in the air and your bad desire  
I feel it in my lungs  
I feel it in my - I feel it in my lungs aaa

## *CHORUS*

I feel it in my lungs  
I feel it in my - I feel it in my lungs ahhh
