

## 3 in the Afternoon

You're smooth keep it cool, you're not too loud  
And your eyes know something that I can't figure out  
When you pull me in, I just can't resist  
Oh, what I would give for one more kiss

Don't make me plead and beg  
I think about you night and day  
I try so hard to keep you off my mind  
But you keep comin back 'cause baby you're so fine

### **CHORUS**

**I know I should go on home  
But I can't walk away from you  
So we'll stay up 'till 3 in the morning  
And won't get out of bed 'till it's 3 IN THE AFTERNOON**

I want you for your body  
I want you for your mind  
I want you for the way you walk outside the line  
I want you for the way you look at me  
So don't let go, don't set me free

I met you once before but I was tied up  
But since that time, you know, those strings've been cut  
So now that I see you and the time is right  
Oh we can get together and stay up all night

### **CHORUS**

We went off one night to another room  
And nobody knows about our rendezvous  
But later at the party we standing close  
Then you kissed me on the dance floor now everybody knows...  
About us

I don't wanna hide it no more  
Our chemistry is hard to ignore  
So take me to your place and close the door  
And I'm not going home because tonight I am yours

### **CHORUS**
