

# This House

One day we could have a house like this  
With a big backyard, and a picket fence  
Grass so green with daffodils on the porch

We'll have a swing for sunny days  
And a cozy couch for when it rains  
We'll have it all, when this house is mine and yours

**Ooo wait a few years and you'll see  
Ooo we'll have this house for you and me**

One day we could be livin' here  
Having Christmas parties every year  
BBQs every Independence day

Soon as we have jobs to buy this place  
We'll move right in and decorate  
With the China that my grandma gave to me

**Ooo wait a few years and you'll see  
Ooo we'll have this house for you and me**

One day we could have a house like this  
With an extra room maybe more a kid  
When we get settled in, and the time is right

They'll run around and break the rules  
And make new friends when they go to school  
Together we will sing to them at night  
When this house belongs to you and I

We don't need a lot of things  
Just somewhere sunny, somewhere safe  
Where we can live the rest of our days

**Ooo wait a few years and you'll see  
Ooo we'll have this house for you and me**
