

## Ride the Waves

Sitting by the ocean  
The tide comes up and down and  
All I want is for you to see it too  
I always liked the way the  
Breeze made your hair all messed up  
The sky is beautiful but you're my favorite view

And I know that I fucked up, should have kept you right here with me  
Let me show you the ocean and you'll never want to leave

**I wanna Ride the Waves**  
**Babe I'm drowning without you**  
**I wanna ride the waves**  
**Wanna ride the waves with you**

Wish I was holding your hand  
I draw your name in the sand  
And I wonder if you write my name too  
I know it won't be easy  
But babe you're worth it to me  
So tell me how I can make things right with you

And I know that I fucked up, should have kept you right here with me  
Let me bring you the ocean so you'll never want to leave

**I wanna Ride the Waves**  
**Babe I'm drowning without you**  
**I wanna ride the waves**  
**Wanna ride the waves with you**

They say that distance brings us closer  
And now I've never wanted you more  
Well I'll swim across the ocean  
If you'll be waiting on the shore

**I wanna Ride the Waves**  
**Babe I'm drowning without you**  
**I wanna ride the waves**  
**I wanna ride the waves with you**

I wanna ride, I wanna ride, I wanna ride, I wanna ride, I wanna ride, I wanna ride, I  
wanna ride with you
