

## All Your Love

**Gimme all your pain  
Gimme all your fight  
Gimme everything  
You feel tonight**

You said you put your emotions in a jar  
Never to see the light of day  
Along time ago you put up a wall  
It's keeping everyone away

I know you've been torn before but not by me  
I can help you run the course  
I know where you're coming from baby don't you see  
I been down this road before

**Gimme all your pain  
Gimme all your fight  
Gimme everything  
You feel tonight**

**Tell me all your heart  
What do you do dream of?  
I'll take your guard down  
Gimme all your love**

**Gimme all your la la -la la la- la la-la la la-la la-la la la -love**

When your tears flow in the dark  
Never to see the light of day  
Just close your eyes and I'll rock you back to sleep  
Cause I will never go away

I know you've been torn before but not by me  
I can help you run the course  
I know where you're coming from baby don't you see  
I been down this road before

**Gimme all your pain  
Gimme all your fight  
Gimme everything  
You feel tonight**

**Tell me all your heart  
What do you do dream of?  
I'll take your guard down  
Gimme all your love**

**Gimme all your la la -la la la- la la-la la la-la la-la la la -love**
