

# We Can

There comes a time  
When the bird must leave its nest  
Leave the comfort of its bed  
And learn to fly

There's comes a time  
When a raindrop leaves a cloud  
To join the ocean or the ground  
From the sky

And I know my time has come  
To leave the place where I am from  
But I can't bring myself to walk out the door

So I think back to childhood  
When someone told me these words...

**YOU CAN**  
**Break the highest ceiling**  
**You can reach the tallest building when you climb**

**YOU CAN**  
**Change the course of nature**  
**'cause your force is getting stronger all the time**

**So don't be scared**  
**You only get one chance at life**

And so I walked  
Down the path that my heart chose  
Soon I crossed a fallen tree  
That blocked the road

There I saw  
Many faces just like mine  
A little lost, a little scared  
But now's the time

We tore the branches from their limbs  
We cleared that path for what's ahead  
And we knew we couldn't do it alone

As we went our separate ways  
We learned that starting today

**We CAN  
Break the highest ceiling  
We can reach the tallest building when we climb**

**We CAN  
Change the course of nature  
'cause our force is getting stronger all the time!**

**So be prepared  
We only get one chance at life!**

(Bridge)

**We CAN  
Break the highest ceiling  
We can reach the tallest building when we climb**

**We CAN  
Change the course of nature  
'cause our force is getting stronger all the time!**

**So don't be scared, and be prepared, just take my hand  
You only get one chance at life**

**Keira Moran**
