

I Love...

They say the term is overused
People throw around "I love you"
When they don't know exactly what it means

Well I'm here today to prove them wrong
That's the reason why I wrote this song
Cause baby, you mean everything to me

So don't make fun, this is how I feel
Cause when you pull me close I know it's real
Listen up, it's what you need to hear

I LOVE holding your hand
I LOVE calling you pet names
I LOVE watching the clouds float by
With you when you're with me
I LOVE making you smile
I LOVE holding you so tight
I LOVE watching the stars in the sky
When you when you're with me
I LOVE you

What we have is quite a lot
It's something special, can't be bought

And I wouldn't give it up for anything
We're stuck together just like glue
It's us forever me and you
You got me going, make me wanna sing

So don't make fun, this is how I feel
Cause when you pull me close I know it's real
Listen up, it's what you need to hear

(Chorus)

Cause you're the one I'm wanting by my side
To kiss me softly when we're dancing in the moonlight
When something's wrong you say "We're gonna work it out"
You say "We're gonna pull through" and we always do
Cause we're the perfect team you know it's true
You know it's true

(Chorus)

Keira Moran
