

# Don't Change a Thing

How did we come to find this place?  
I see the changes in your face  
I don't know how you've strayed so far  
From what you believe and who you are  
Does it still matter to you at all?

Don't get swallowed up by that crowd  
They're only gonna bring you down  
You know you don't have to do the things they do  
Why try to be them when you could be you?

**Oh Oh Oh DON'T CHANGE A THING (look in the mirror my friend)**  
**Oh oh oh know I'm still here (and ask yourself)**  
**Oh oh oh waiting for you (is this who you want to be)**  
**Oh oh oh DON'T CHANGE A THING, DON'T CHANGE A THING**

What do they have that means so much?  
The right look the right laugh and such  
Why do you care about these superficial things?  
They never meant that much before

Don't get swallowed up by that crowd  
They're only gonna bring you down  
You know you don't have to do the things they do  
Why try to be them when you could be you?

**(Repeat Chorus)**

The one I know before smiled everyday  
Its been a real long time since you've been that way

**(Repeat Chorus)**
