

# We're Going Crazy

We won't be young forever  
Right now we're strong and free  
Let's take a ride together  
The open road is calling me

We'll be driving with the top down  
Feel the breeze rushing past my face  
The music is playing loud  
We gotta get out of this place

There's no point in hanging around  
The adventure's leaving now  
And we won't wait till tomorrow

**There's only so many years in your life  
So we gotta make the most of today  
Let's live it up- won't go to sleep tonight  
Let down your hair, we're going crazy**

We're singing the top of our lungs  
We're dancing till the sun comes up  
We won't apologize for having fun  
'Cause we just can't get enough

There's no point in hanging around  
The adventure is leaving now  
And we won't wait till tomorrow

**There's only so many years in your life  
So we gotta make the most of today  
Let's live it up- won't go to sleep tonight  
Let down your hair, we're going crazy**

**I'm sick of watching life go by  
And I need this moment to save me  
Let's live it up- show our wild side  
Tonight's the night we're going crazy**
